FIGHTING ENDS IN ITALY FOR YOUTHFUL NAZIS. Surprisingly youthful are these Nazi soldiers taken prisoners by the Allied forces in the first day's fighting of the current big push in Italy. The important city of Cassino was wrested from the Germans in this drive in which hundreds of Axis prisoners have been taken. Those above were photographed while waiting for transportation to prisoner-of-war enclosures.

AIR RAIDS — Heavy RAF night raid followed up today by attacks by 1,750 U. S. planes on France and western Germany.

STILWELL'S MEN FIGHT THROUGH
Monsoon To Mop Up Japs
in Myitkyina.

By The Associated Press
Monsoon rains forced a slow-down in the Allied drive to seize the key Burma city of Myitkyina today and another big operation in the Pacific war—the presumed attack on Japanese-held Marcus Island—lay hidden in radio silence.

STILWELL KEEPS GOING
Continuation of fighting, however, suggested that General Stilwell planned to keep right on going in his drive to link the Burma and Ledo roads into China, despite the monsoon.

PAKISTAN HEADQUARTERS
Pearl Harbor remained as silent as the grave in the face of a Japanese announcement an Allied task force had recently attacked Marcus Island, 1,190 miles from Tokyo, throughout Saturday and Sunday.

1,750 AMERICAN All Britain Gripped
PLANES BLAST by Invasion Tense
NAZI RAIL LINES

Airfields and Other Targets Hit
in France and Western
Germany.

By The Associated Press
LONDON, May 23—New American planes gripped Europe today in a series of attacks on German rail lines, airfields and other targets in France and western Germany.

THE DAYLIGHT BLOW—though into the fifth straight day of renewed allied aerial offensive against Hitler's western defenses—came after more than 1,000 British night bombers had rained an estimated 3,600 tons of explosives on Dortmund and Brunswick in Germany and four other continental objectives.

THIRTY-FIVE RAF PLANES were massing from last night's operations, and at least two enemy fighters were destroyed, the air ministry said.

THE FIRST CRACK OF DOWN brought out the day attacker. While the American heavy bombers were unleashing their deadly cargoes on a wide assortment of installations, the RAF's main mission was to attack the enemy's plans to combat the impending invasion, many of the Mustangs, Lightnings and Thunderbolts in the unusually strong fighter escort probably swooped low to shoot up other objectives.

RAF STRAFES TARGETS
Still other fighters—RAF Mustangs—carried out supporting sweeps ranging over miles of enemy-held territory to shatter targets of opportunity in a continuation of the new phase of the western air war carried out by low-flying American and British fighter planes.

COUNTED TOGETHER, the night and day assaults saw approximately 3,000 allied planes torn out from their bases and hurl on estimated 5,000 short tons of bombs on continental targets.

THESE LATEST ATTACKS, bought in around 22,000 tons, the total weight of explosives dumped by allied aircraft flying from both Britain and Italy during the last five days.

THE GERMAN RADIO reported furious battles between the German air force and American fighters attacking targets in France today, but made no mention of any flight over Germany itself.

WHILE THE MAIN FORCE of the gigantic night armada concentrated on Nazi industrial and communications cities, other formations hit rail junctions at Orleans and Le Mans in France in a continuation of a systematic campaign to paralyze Hitler's western transport system before allied ground forces invade the continent.

MOSQUITOES attacked Ludwigshafen and an allied airfield in Belgium and mines were laid in enemy waters.

NARX HIT PORTSMOUTH
Portsmouth was identified by the Germans as the principal target of their night raids at Britain, the Nazis saying they attacked the harbor and other installations.

THE NIGHT OPERATIONS came a prompt follow-up to attacks on the first day yesterday by perhaps 3,000 allied bombers and fighters.

AROUND KOLKATA in eastern India the British were mopping up, and the tone of a headquarters announcement was confident.

Around Rome.

By The Associated Press
LONDON, May 23—The Allies on the Anzio beachhead smashed forward today in a mighty offensive and a multi-pronged assault against the Hitler line from the east, opening a new phase of the battle in Italy to crush the German armies.

At the same time other Fifth army forces hammered upon Nazi defenses on the coastal sector—only 22 miles behind the beachhead.

Gen. Mark W. Clark personally directed the assault as the beachhead force, swollen by reinforcements, struck as though in an explosion of the tightly-hammered mass of military units.

The tank-led assault at the beachhead jumped off an hour after dawn, striking savagely toward Cassino (stride the Apennine way, a mile and a half away, and the Alban hills below Rome, a front dispatch said. Doughboys charged across the flat no-man's-land against mine-protected enemy positions.

The Fifth army hit in full-scale assault against Nazi strongholds in the Liri valley. British, Canadian and Polish units already had penetrated the Hitler line there, and had the strongholds of Pontecorvo, Arquino and Piedimonte in a pincer grip because today's offensive started.

On the coastal sector, Fifth army men had seized more mountain heights guarding the Apennine way approach to the beachhead across the Pontine marshes.

Report Pico Evacuated
(Berlin declared Pico—pivotal stronghold in the center of the main front—had been evacuated.)

Between 500 and 700 heavy bombers and many other planes hammered at German troops and tanks and targets within a 50-mile radius of Rome in a thunderous spearhead for the beachhead offensive.

A battlefront dispatch declared "the whole Liri valley seemed to erupt today" as the Eighth army crunched against Hitler line bastions some 10 miles east of the beachhead.

"The battle in Italy has started upon a new phase," allied headquarters declared.

"An attack by the Fifth army beachhead force started early in the morning May 23 in conjunction with an attack by the Eighth army against the Hitler line and continued action by the Fifth army on the coastal sector."

No details of today's fighting are available yet, headquarters added.

(A Berlin broadcast declared "it appears that the Anglo-American command in south Italy intends to force success at all costs in the course of today.")

The German high command said the beachhead offensive opened after intensive artillery drumfire, with troops, tanks and planes thrown into the assaults hitting south-west and west of Arquino, and in the Cassino-Lutetia sector).

Clark Moves Headquarters
General Clark moved his headquarters to the beachhead to direct this new phase of the Italian campaign. His beachhead force is composed of both American and British divisions, part of the Fifth army.

The beachhead's military strength had been built almost to the bursting point for the attack, with the aid of the British and U. S. navies whose warships also have supported land operations with heavy shelling.

(The Swiss radio said the two Fifth army forces now were only 20 miles apart.)

Pacing the beachhead charge, Allied light bombers and fighters bombed Nazi concentrations on an eight-mile stretch of dry river bed near the rail line north of Cassino, German fortress city in the center astride the Apennine way, and swooped low to strafe the Germans.

(The Swiss radio said the Allies, hitting on the eastern edge of the beachhead, had reached Lake Bracciano.)

War Chest Officials Elected

Five Chosen for Board of Trustees; Financial Report Given for Six-Month Period.

Selection of nine members of the board of trustees, succeeding the previous terms expire this year, was held at the annual meeting of the Marion County War Chest Monday night at the Y. M. C. A.

E. O. Oliphant, president, presided over the meeting.

Electing on the board of trustees were: B. Ellis J. Wendell Wiant, J. E. Holt, John J. Zuck, J. E. Cleveland, C. O. O'Connell, Carl Danner and J. E. O'Connell. Named to succeed Earl J. Pierce, who moved out of the county, was L. O. Porter, who will serve Mr. Pierce's unexpired term for one year. The newly-elected trustees will serve three years.

Paul Bachman, treasurer of the Community Fund, presided for the election. It was announced that the nominating committee, headed by J. J. Stafford, chairman, has prepared a slate of officers to be presented at a meeting of the board of trustees in the near future. All newly-elected trustees are asked to be present.

"CONSTIPATION GONE - THREW PILLS AWAY"

"Year's trial convinces me All-Brans' a better way"

Why go on dosing? Read this sincere, unsolicited letter from an ex-constipation sufferer:

"I'm a regular letter to radio programs featuring KELLOGG'S ALL-BRAN. Pleased to say my breakfast every morning for over a year has been a generous bowl of ALL-BRAN. It gives such wonderful relief. I've thrown away all my pills and other purgatives. ALL-BRAN is a much easier way to get regularity. Others with constipation like mine really should try it." Mrs. J. P. Grubb, 4404 N. Broadway, Fountain City, Indiana.

This seeming magic makes plain common sense. You see, KELLOGG'S ALL-BRAN is really 75% of a common cause of constipation—lack of dietary cellulose elements—because it is one of Nature's most effective sources of these elements. They help the friendly flora to fluff up and prepare colonic contents for easy elimination. KELLOGG'S ALL-BRAN is not a purgative! Doesn't sweep you out. It's a gentle action, "regulating" food.

If you have constipation of this kind, eat KELLOGG'S ALL-BRAN, or several ALL-BRAN muffins regularly. Drink plenty of water. See if you don't find real lasting relief. Insist on the genuine ALL-BRAN, made only by Kellogg's in Battle Creek.

FIRE STATION REPAIRS SET

City Council Authorizes Work; Post-War Planning Group Selected.

Repair of the Central fire station which was damaged by lightning in a storm last week, the necessity of preparing for the future by thinking about a post-war program and the question of providing a sidewalk on other suitable path for the safety of school children, along Indiana avenue were matters which highlighted the meeting of the city council Monday night.

In a caucus preceding the council meeting the members were given an outline of the plans for the repair of the tower on the Central fire station as proposed by Safety Service Director John V. Ruth and approved by the land and building committee, composed of Clarence K. Saiter, Don R. Bigger and Charles A. Tate.

Bids on the work will be received and the work of repairing the damage to the tower on the fire station will be started as soon as possible, the service director said today. To provide material for the repair work it is planned to reduce the height of the tower by approximately three feet and use the salvage brick to make the repairs. Brick, such as was used in building the station can not be obtained now, and by using those in the extra three feet of the tower the appearance of the building will not be changed.

Reducing the height of the tower will not alter the appearance of the building appreciably and will not interfere with the purpose of the tower which is used for drying the hose and to house the fire bell. The space above the bell, which will be eliminated with the cutting down of the tower, was a "well" and was of no use so far as the building is concerned. Damage to the tower has been estimated at around \$1,000.

Repair and maintenance of streets came in for a considerable amount of discussion and council was informed by the safety-service director that a summer program is under way and will be carried out as manpower and materials permit.

Mayor Harry L. Dowler expressed the opinion that council should be thinking about post-war planning and upon his suggestion that a post-war planning committee be named, William G. Slack, president of the council, named the following: Philip H. Rea, chairman, Harold P. Robinson and William Simmons. "I don't believe we should be asleep, and we should have some definite projects in mind when the proper time comes," Mayor Dowler told the councilmen. He made no specific suggestions but stated that "certainly the sewer system should be considered." We may need a municipal building, and sidewalks and other projects need attention.

Renew Walk Plan

Approximately 25 members of the George Washington and Vernon Heights P-T-A groups, patrons of the two schools and residents of Indiana avenue were present in the interests of having adequate facilities for pedestrians along Indiana avenue, particularly as a safety measure for pupils of the two schools who use the thoroughfare to and from classes.

The hazards to the children, due to the fact that Indiana avenue now is used as a short cut by many motorists, were pointed out by representatives of the school and P-T-A. and in the discussion regarding the cost of laying a sidewalk, property owners expressed the opinion that in view of property values that were in no position to be levied with a tax for the laying of a sidewalk at this time. In response to a question as to why the street was paved without cost to property holders, Safety-Service Director Ruth explained that the street was built as a WPA project and had been chosen because it passed the George Washington school. A discussion as to how the problem might be solved brought the suggestions that assessments might be divided

KING'S DAUGHTERS GROUP MEETING IS HELD HERE

A report on the International convention of King's Daughters held in Jackson, Miss., the first of May, was given by Mrs. Fred Stucker of Toledo at the afternoon meeting of a group convention of the Ohio branch of King's Daughters held at First Methodist church Monday. Mrs. Stucker, who is state president, also reported on the work at Maple Crest home for girls in Bucyrus.

An invitation was extended by the Bucyrus circles for the state convention in October and Mr. Gilead invited the four-county group to meet there in May, 1945.

The group includes circles from Morrow, Marion, Crawford and Logan counties.

CHILDREN BANNED FROM GROCERY FOOD CARTS

Health Commissioner Acts After Complaints Are Received.

Placing children in food carts in stores has been prohibited by Dr. M. M. Weinbaum, city health commissioner, in a letter sent to stores providing carts for their customers. The order was issued as a health protection as well as protection to the store owners, it is pointed out. With the shortage of wrapping paper customers frequently place unwrapped fruits and vegetables in the baskets and it isn't very appetizing to place them in containers formerly occupied by children, he pointed out. Several complaints asking that such a step be taken were received at the city health office.

both houses. Why, then, should they have also to be ratified by two-thirds of the senate?

If the senate does ratify, the two houses still have to act, and to act not once, but repeatedly, at least once each fiscal year. So the senate's ratification settles nothing. If the senate does not ratify, its disapproval is a permanent veto on a policy which might command year in and year out substantial majorities of both houses.

In some such fashion as this, by putting the senate on notice that it must not abuse its privileges and then by a discriminating plan of organizing the settlement, we can avoid a destructive deadlock which might squander the victory.

Green Camp Church To Open on Invasion Day

GREEN CAMP — The Green Camp Methodist church will be opened for meditation and prayer on invasion day, Rev. T. A. Ballinger, pastor, announced Monday, following a vote of the congregation Sunday. The church will be open during the day and evening.

The Methodist church is the first of the local churches to take official action on opening the church on invasion day.

Rev. Ballinger stated that members of all denominations are invited to worship in the Methodist church.

The church bell will ring as soon as news of the invasion is received.
